Please place this Index in front of your CQ 1957 Weekly Reports. It covers material from Jan. 4, 1957, through Dec. 27, 1957.

Your index is the key to the record of the many Congressional and political developments of this period. All subjects are listed alphabetically.

To help you find material, numerous index entries have been made for all Weekly Report articles. These articles are indexed for each subject they cover and for every individual mentioned.

INDEX

January--December 1957

WHAT CQ COVERS

The 13 volumes of Congressional Quarterly Almanac for 1945-1957 cover the 79th, through 84th Congresses, and the first session of the 85th. CQ WEEKLY REPORT INDEX -- This is the index, published quarterly, to CQ Weekly Report. CQ Weekly Report is issued every Friday by Congressional Quarterly Inc., 1156 19th St. N.W., Washington 6, D.C., (Phone STerling 3-8060) for newspapers, libraries, schools and individual subscribers. Subscription rates are scaled from \$96 a year (a public service rate without editorial rights) through \$2,000 a year, and are based on membership and/or circulation. Subscriptions include this quarterly cumulative index, WEEKLY REPORTS and binders for convenience in filing them, and clothbound ALMANAC.

All reproduction rights, including quotation, broadcasting and publication are reserved for editorial clients. Second rights also are reserved, including use of Congressional Quarterly material in campaign supplements, advertisements and handbooks without special permission.

WEEKLY REPORT CORRECTIONS

To increase the reference value of its editorial matter, Congressional Quarterly periodically publishes corrections and clarifications for its Weekly Report. CQ corrects major errors as they are noted and assembles other corrections at the end of each quarter. The corrections that follow are to be made in the 1957 Weekly Report:

Weekly Report, Page 1231, Column 1 -- Under "AFL-CIO SUSPENDS THREE UNIONS," second paragraph, line 1 should read: The resolution suspending the Teamsters, adopted by a vote of 25-4 (not 24-5).

Page 1242, Column 2 -- Last sentence should read: Foote's nomination must be resubmitted within 40 days after the second session begins, and the Senate must confirm his nomination in 1958 if he is to keep his job (not Foote must be confirmed in January).

Page 1326, Column 2 -- Under "FARM BUREAU CONVENTION," seventh paragraph, lines 10 and 11 should read: Provides that contract term for retiring acreage from production extend over a period of years (not one-year contract terms).

Page 1326, Column 2 -- Under "FARM BUREAU CONVENTION," ninth paragraph, lines 2 and 3 should read: Extend...with revisions to reassert authority of the Tariff Commission over evaluation of requests for import controls (not to transfer authority to set final tariff policy from the President to Congress).

CONGRESSIONAL RECORD VOTE CORRECTIONS

The following corrections in official reports of the outcome of roll-call votes during the first session of the 85th Congress have been listed in the Congressional Record.

The lists are subdivided into "Vote Changes" and "Stand or Announcement Changes." The former involve adjustment of the "Yea" and "Nays" in the breakdown on Congressional Quarterly roll-call charts -- the latter do not affect the breakdown.

The Congressional Record roll-call corrections listed below were inserted in the Record too late for CQ to include on current Weekly Report vote charts; Weekly Report pages where these votes may be found are indicated so that you may bring your Report file into conformity with the Record.

Symbols used in these vote corrections:

Y -- Yea AY -- Announced For
N -- Nay PY -- Paired For
A -- Absent PN -- Paired Against

GP -- General Pair

In correcting CQ vote charts, see key on chart for appropriate CQ symbols.

Modern Editorial Tools Make a Better Newspaper

NEW METHODS and equipment in newspaper plants all over the country are designed for the most efficient flow of composition and printing. They are installed to save time, man-hours and therefore money. They have been developed through a careful study of operations and costs.

Editorial departments have comparable problems. They, too, should "live modern". Editorial management must use increasingly expensive man-hours and increasingly expensive white space to produce a newspaper which faces intensified competition for the reader's time from other media. Editors must produce solid copy with more variety and interest for readers—and in less white space.

The news research services of Congressional Quarterly and Editorial Research Reports save editorial man-hours. Yet they simultaneously improve the variety, depth and interest of the editorial product. As with all worthwhile labor-saving devices, their cost is small compared with the benefits.

More than 400 newspapers use this news research service—newspapers in small towns and in the great cities of the world.
